TEST TEXT

1> Shake off problem [problems]

A man and his donkey were on the way to grazing while the donkey fell into
1> a huge pit. The man was shake [shaken] and tried hard to pull off his
1> favorite donkey up to the ground. Despite his strenuous attempts, his [he]
failed to bring the donkey back. But he can not leave the donkey to
starve and die with pain for days. So he decided to bury him alive and
1> make his death smoother. So he starded [started] pouring soil over the
donkey in the pit. When he poured the soil, the donkey felt the load and
1> shook it off and the [he] stepped on it. He did the same every time when
the soil was poured on his body. In the end, he reached the ground level
and easily walked away to graze in the green pastures. Do not choose to
live with your problem. Just shake off your problems and stand on it and
step up in life after learning from them. Every bad experience is a new
learning. So get the positives out of it and work towards your goals.
